SUMMARY

Backend Software Engineer with internship experience developing scalable backend systems using **Java (Spring Boot)** and **Go (Golang)**. Experienced in building **RESTful APIs**, implementing **JWT Authentication**, **RBAC**, and designing databases using **PostgreSQL** and **MySQL**. Familiar with microservices architecture, API integrations and cloud deployment.

TECHNICAL SKILLS

Languages: Java, Go (Golang), SQL

Backend Technologies: Spring Boot, REST APIs, JWT Authentication, RBAC, Microservices, Spring Data JPA, Hibernate

Databases: PostgreSQL, MySQL, H2

Tools: Git, GitHub, Docker, Postman, Swagger

Core Concepts: OOP, SOLID Principles, Database Design, API Design

AI & Productivity: ChatGPT, Claude Code

WORK EXPERIENCE

Full-Stack Developer Intern

Feb 2026 – March 2026

Acrevu

Noida

- Developed backend services using **Java Spring Boot** and PostgreSQL for a property management platform.
- Implemented **JWT Authentication**, **RBAC**, server-side filtering, and pagination APIs.
- Designed REST APIs and database schemas while collaborating with frontend developers for integration.

Backend Developer

June 2025 – December 2025

TriventCAD Solutions

Dehradun, India

- Developed and maintained **backend microservices** using **Java Spring Boot** and **Golang**.
- Owned the development of a new **Region Management feature**, including **PostgreSQL schema design**, business logic implementation, and **REST API development**.
- Built and optimized **REST APIs** with validation and exception handling; designed **PostgreSQL** database schemas for performance and scalability.
- contributing directly to **production-grade code** and backend feature delivery.

PROJECTS

Acrevu – Property Management Platform | *Java, Spring Boot, PostgreSQL, JWT, RBAC* | [Backend](#)

Feb 2026

- Developed backend APIs for a property management platform using **Spring Boot** and **PostgreSQL**.
- Implemented **JWT-based authentication**, **RBAC**, custom property filtering, and server-side pagination.
- Designed database schemas and REST endpoints to support scalable property search and management workflows.

OWE-Hub: Unified IT Platform (Backend) | *Go (Golang), Java Spring Boot, PostgreSQL*

December 2025

- Developed backend services in **Go (Golang)**, **Java / Spring Boot** within a **microservices architecture**.
- Designed and implemented a new **Region Management Feature**, including API development, business logic, and PostgreSQL schema changes.
- Collaborated on production-grade backend modules and workflows.

Blogging Application Backend | *Spring Boot, MySQL, JWT, Render* | [GitHub](#) | [Live API](#)

April 2025

- Built a secure backend using **Spring Boot & MySQL** with **JWT role-based authentication**, pagination, sorting, and global exception handling.
- Deployed on **Render** with Swagger UI documentation and implemented modular service architecture using Spring Boot best practices.

EDUCATION

SGRR University

Dehradun, India

Master of Computer Applications (MCA) | CGPA: 8.7 / 10

2023 – 2025

SGRR (PG) College

Dehradun, India

B.Sc. (Physics, Chemistry, Mathematics) | CGPA: 7.0 / 10

2020 – 2023

CERTIFICATIONS

Java Certificate – HackerRank | [Certificate Link](#)

Jan 2026

AI Tools Workshop – Be10x | [Certificate Link](#)

April 2025
